HappyFeet themes make your child a star in his/her own imaginary adventure. He/she will love pretending to be one of our soccer-playing characters! Our fun approach ensures your child an absolute blast while developing elite physical skills and self-concept. The HappyFeet curriculum is designed to gradually develop ever more advanced physical skills and self-belief. HappyFeet is age and skill level appropriate.

While pretending to be a "Star", your child will learn to skillfully perform some of the most difficult moves in soccer. You will be amazed when you see your 3 year old performing advanced dribbling skills after just a few weeks in the program! He/she will also work extensively on striking the ball to score goals.

To make sure very child has a positive experience, HappyFeet classes are non-competitive. We use fun techniques to train advanced motor skills, dynamic dribbling, shooting skills and fitness.
