

ADDENDUM #3

July , 2018

**REQUEST FOR PROPOSALS FOR REGIONAL BIOSOLIDS FACILITY
NAUGATUCK, CONNECTICUT**

Response to Questions

- 1. Does the Borough have any existing Geotechnical Investigation Reports and/or soil boring information for the proposed 2 acre sludge expansion site, the WWTP site or any adjacent areas? If so, could the Borough share those reports with the Proposers?**
Limited geotechnical information is available on a nearby fuel cell site. Please see the Borough's web site for this RFP.
- 2. We would like to schedule a site visit to access/walk the proposed 2 acre sludge expansion site. Is that possible through coordination with you?** Yes, please call or email Jim Stewart (contact information in the RFP) to set up a date, time.
- 3. Could the Borough provide the Proposers a site civil drawing or drawings showing existing utilities (water, electric, natural gas, etc.) and yard piping for the purpose of interconnection with the new Biosolids Facility?** Available drawings are provided in the Borough's web site for this RFP.
