### INFORMATION FOR BIDDERS

#### Borough of Naugatuck

#### Contract No. 15-17 Bulk Refuse Hauling, Recycling, and Disposal Services

##### 1. Description of Work

The delivery, hauling and legal disposal of Oversized MSW and Scrap Metal in 30-yard containers, as needed, to and from the Naugatuck Recycling Drop-Off Center, 246 Rubber Avenue, for the time period beginning July 2014 through July 2015, inclusive.

Bulk Containers shall be bid in the following categories:

- (1) - METAL to include misc. metal products, appliances and white goods.
  
- (2) - OVERSIZED MSW to include misc. large household items, furniture, rugs, plastics, misc. wood products, sheetrock, carpeting, mattresses etc.
  
- (3) - *Optional Category* - MATTRESSES\*\* If vendors wish to have mattresses and box springs separated from the Oversized MSW they can bid in this category. (\*\*Mattress collection will change when the Connecticut Mattress Recycling Law (Public Act 13-42) takes effect, expected to take place during 2015. If that happens during the terms of this agreement Naugatuck has the option of discontinuing service for mattresses.)

Vendors may bid an individual category. Vendors do not have to bid all categories.

Please indicate within the comments section any special separation requirements (ex: mattresses, box springs etc...). Televisions and computers, tires, and other recyclables will be separated by employees and are not expected to be included in the bulk loads according to State of CT law. On-site separation of bulk materials shall be performed by Naugatuck residents at the direction of Street Department employees.

All materials, including Scrap Metal, are considered the property of the Borough while in the 30yd container on site. Once the container is collected by the successful bidder it will then become the property of the bidder with all rebates going directly to the Borough of Naugatuck.

Containers shall be delivered and picked-up in a timely fashion as requested by the Borough. It is mandatory that successful vendors supply next day service in the delivery and removal of bulk containers, as directed.

All bulk container bid quotes shall be reflective of a price per container and **NOT** by the yard or by the ton measurements, except where rebates for scrap metal are paid per ton. The Borough will not pay a separate cost for individual container rental, environmental or fuel surcharges. Please include any extraneous and/or rental fees in the bid price per container, as quoted, in your sealed bid submission. The Borough will pay upon removal, **NOT** delivery of the container.

Successful vendors shall be solely responsible for all costs associated with the transport and legal disposal of all bulk containers, with the Borough of Naugatuck held harmless as to container

transport, disposal and contents. It is mandatory that ALL successful bidders include in their monthly invoice a copy of weight slips for each and every haul and an exact location of all contents disposal. **NO EXCEPTIONS!** The Borough of Naugatuck retains the exclusive right to cancel bid award, without recourse, and to re-award to another vendor if weight slips and disposal locations are not provided.

The Borough of Naugatuck Recycling Drop-Off Center is currently open two days per week. Based upon current usage, estimates for bulk containers, to be hauled twice per week, are as follows:

Refuse: 3 - 6 / week Metal: 2 - 3 / month Mattresses: 1 - 2 / month

This estimate is subject to variables such as seasonal considerations. In addition, it is anticipated that the Recycling Center will be closed for 3-4 months during the winter season. These estimates and projections are meant solely to assist vendors in understanding potential service and not as a guaranty of servicing needs and/or requirements.

In addition, all bulk container requirements of the Borough shall apply to this bid document, including building demolition, regardless of container location within town boundary limits and bid price shall be extended to include these situations as requested.

All refrigerators, freezers and air conditioners shall have freon removed prior to actual loading into scrap metal containers. Legal disposal of all capacitors shall be the sole responsibility of the successful bidders.
