
**DISTRICT WIDE SCHOOL UPGRADES – PAVING
NAUGATUCK, CONNECTICUT 06770**

S/P+A PROJECT NO. 16.041

Date Issued: May 8, 2017

The following changes to the Drawings and Project Specifications shall become a part of the Drawings and Project Specifications; superseding previously issued Drawings and Project Specifications to the extent modified by Addendum No. 2.

General Information:

- As discussed at the pre-bid meeting on April 24, 2017, the Contractor is responsible for phasing the Work at Maple Hill and Western Schools in coordination with School Administrators to allow for portions of the Work area to be used for staff parking during normal school hours. Access to the school buildings must be maintained to permit safe access to the building for school staff, students, parents and emergency personnel. Any Work that will restrict this access to the building must be scheduled for and limited to weekends, after dismissal of after-school programs, or after the end of the 2016-2017 school year.
- Contractor is responsible for coordinating Work during morning student drop-off and afternoon student pick-up, including providing access for parent's vehicles and school busses at the main driveway, building entrance loop driveway, and at other drop-off/pick-up areas designated by the Owner. Contractor is responsible for providing conditions at these locations suitable for safe vehicle and foot traffic.
- Contractor is responsible for restricting access to Work areas by means acceptable to the Owner as required to prevent unauthorized persons from entering active Work areas of the jobsite.
- It is the Contractor's responsibility to ensure that the area of Work be made safe and hazards protected at the end of each workday.
- Where detectable warnings are indicated on the Drawings, cast-in-place sidewalks (with integral curb per Detail E/CS101) are required for the portion of sidewalk indicated by Detail B/CS101.

Changes to the Specifications:

- SECTION 321313, CONCRETE PAVING, Page 5, Article 2.8.B.5.a., revise "sized as indicated in Drawings" to read "24 inches by 4 inches less width of sidewalk".

The bid date is unchanged by this addendum.

The addendum consists of one (1) page of 8½"x11" text.

End of Addendum '2'
